Feinkost Käfer

"Käfer is a family business, everything was still very manual, no longer up to date! Staff is getting more expensive and we don't want people pushing paper anymore. My role is to lead Käfer into the digital age!"

Case study : Käfer Group

About the Käfer Group

The Käfer Group is a premium supplier in the delicatessen, food, caterin and gastronomy sectors. In 1930, Elsa and Paul Käfer founded Feinkost Käfer by opening a grocery shop in Munich's Amalienstraße. Today, the company's headquartesr are in Vaterstetten near Munich.

On Käfer's expense situation before Mobilexpense: "[we had] manual processes, missing receipts, it tooks months for reimbursements to go through. With Mobilexpense, the process has been simplified: [we take] photos of receipts, [it's] available anywhere, repayments are quick."

Since its founding in 1930, the Käfer family business has grown steadily, developed into the market leader in Germany and, as a holding company, includes numerous subsidiaries.

The company employs over 1,400 people and has an annual turnover of around 150 million euros. As the business processes were very manual and

paper-based, Käfer was looking for an innovative solution for business development and digitalisation.

After intensive discussions with Mobilexpense, the Käfer Group decided to enter the digital age and implement Mobilexpense's expense management tool.

Expense Management at Käfer before Mobilexpense

With staff in different areas and events in different locations across Germany, the expense management process was a major challenge for the Käfer Group. Processes were largely manual, which robbed the company of valuable time. In addition, paper receipts were not always submitted, were lost or their processing was slow.

Käfer was looking for a digital solution to speed up the old processes and simplify them across the company. With Mobilexpense's expense management tool, they hoped to solve this problem. And they did.

Requirements & selection

The Käfer Group's main concern was simplifying document management. The employees needed to be freed from outdated "paper management" so that they could concentrate on their work tasks.

scan receipts on the move, regardless of time and location, and send them to the solution in real-time while saving them digitally. Missing information is easily added straight from the app. Receipt management takes just a few clicks and is reliable as well as compliant with local regulations.

Mobilexpense's expense management tool looked to be the right solution: employees can

"What we enjoy about Mobilexpense? In our experience, Mobilexpense is fast and flexible. We are a complex customer. The team at Mobilexpense has been flexible in responding to and helping us!"

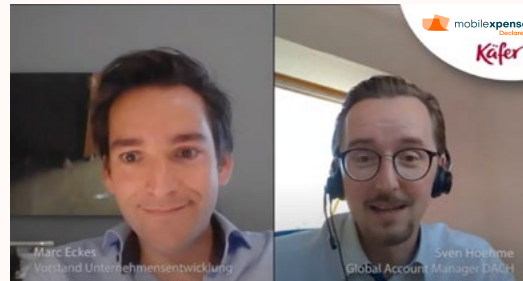

Implementation

With the help of Mobilexpense, we implemented the expense management solution. Mobilexpense offered Käfer an individually tailored solution. There was constant communication and all questions were dealt with quickly, flexibly and comprehensively. In particular, Mobilexpense's quick response and personal support contributed to a smooth implementation process.

The Mobilexpense management tool was a success right from the start as it is user-friendly and easy to use. Time and cost savings were immediately noticeable following the implementation.

The switch to Mobilexpense's expense management tool has been to our complete satisfaction. Acceptance is high among employees. The new process is much simpler thanks to Mobilexpense, which has resulted in enormous time and cost savings for Käfer. Employees digitally scan and store all their receipts and statements quickly, regardless of where they may be, ensuring timely processing and settlement of all expenses even when employees are not on site.
